This is getting ridiculous. Will you please stop wasting the taxpayers money already? The public has always had a right to chose what they want. If I go to the store I have choices. They may not be a lot of choices but then again, I haven't seen any other products out there that are as efficient and user-friendly. All these companies need to stop complaining and come out with a good, reliable product that consumer would want. If they had worked as hard as they are fighting against Microsoft they would have a good product by now!

What kind of country have we become when we go after people that are only trying to improve our technology and benefit the world? Instead of wasting your time with this ludicrous pursuit you should all be looking for Bin Laden and his people and stop harassing valued and outstanding citizens like Mr. Gates and his employees.

Sincerely,
Satisfied Microsoft Consumer
